Bole Bulbula, Addis Ababa

SKILLS

- Communication and Teamwork
- Problem Solving
- Frontend (HTML, CSS and JS)
- Programming languages (C++ and JS)
- Database (MySQL)

TOOLS

- VS CODE
- PopSql, Mysql Workbench
- Git and GitHub
- Figma

LANGUAGE

- Amharic
- English
- Hadiyisa

ABOUT

My name is Dilayehu Dessalegn, a passionate Software Engineering student at AASTU. I have completed Responsive Web Design courses and am currently working on real-world projects to develop my skills and bridge the gap between theory and practice. Additionally, I am learning Data Structures and Algorithms to enhance my problem-solving abilities.

EXPERIENCE

Campus Project – Personal Finance Tracker | AASTU
Designed and implemented a Personal Finance Tracker using C++ and MySQL, enabling users to record, categorize, and analyze expenses and budgets. Built database schemas for storing transactions and applied SQL queries for efficient data retrieval and reporting. Focused on input validation and error handling to ensure reliability and user-friendly interaction. This project strengthened my skills in object-oriented programming, database management, and practical problem-solving.

EDUCATION

Addis Ababa Science And Technology University
2025 - 2029

Bachelor Degree in Software Engineering

Free Code Camp | Free Online Course
2025 – 2026
Responsive Web Design

Udacity | 5 Million Coders
2024

Fundamentals Of Programming
